EASEL ART SPACE - NEWSLETTER -

IN ASSOCIATION WITH CSTUDIOS ART GALLERY

ISSUE #01 | DATE 05/ 06/2021

WHAT IS EASEL ART SPACE?

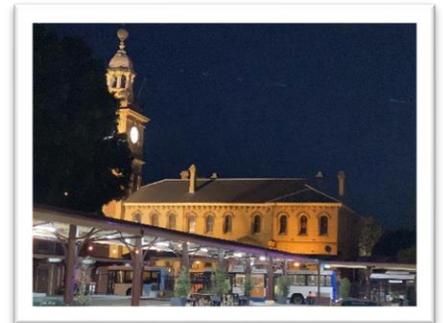

Easel Art Space is situated in Newcastle's iconic industrial and social centre at the [Old Newcastle Station](#), built in 1858 and operational as the Hub of Newcastle industrial and social enterprise until 2015.

We arrived here just 4 months ago.

The Art Space that has been created is a blend of gallery and workshop space enveloped by the architecturally significant beauty of one of the oldest stations in Australia and indeed, the World.

Such a positive history with so many stories and connections . . . read [Upon being Back at Newcastle Station](#). Through our curated artistic program, Easel Art Space aims to engage our audience with regular exhibitions showcasing a diverse range of local and national artists . . .

Our program provides opportunities for contemporary art exhibitions, installations and performances, artistic talks, workshops, bespoke events and a variety of activities intended to connect the arts with the public.
